SHARED SERVICES DEPARTMENT

TENDER FOR THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE SUPPLY, AND DELIVERY OF VARIOUS CATEGORIES OF VEHICLES UNDER FULL MAINTENANCE LEASE, FOR A FIVE -YEAR PERIOD

BID NUMBER
(SS03-2020/21)

1. INTRODUCTION AND PURPOSE

The City of Tshwane (CoT) is classified as a Category A, Grade 6 metropolitan municipality. It currently covers approximately 6 368km² of Gauteng's 19 055km² and stretches almost 121 km from east to west and 108 km from north to south making it the third-largest city in the world in terms of land area, after New York and Tokyo/Yokohama.

The City has the Constitutional mandate to execute the local government functions as listed in Schedules 4B and 5B of the Constitution of the Republic of South Africa. The functions listed in the said schedules are executed within the City by the various political and administrative structures as contained in the approved governance model of the City.

The City's strategic pillars are as follows:

- A City that facilitates economic growth and job creation.
- A City that cares for residents and promotes inclusivity.
- A City that delivers excellent services and protects the environment.
- A City that keeps residents safe; and
- A City that is open, honest and responsive.

The City of Tshwane Metropolitan Municipality hereby invites suitably qualified companies to tender for the supply and delivery of various categories of vehicles under full maintenance lease for a period of five years.

2. BACKGROUND

City of Tshwane end user-departments are critically at the fore front of essential service delivery, consisting of Tshwane Metro Police, Emergency Medical Services, Transport & Roads, Agriculture & Environmental Management, Electricity department and Finance Department. Fleet is largely distributed across seven regions within Tshwane. As such, they ought to be adequately resourced with necessary vehicles, equipment and machinery (VEMs) to prevent substantial service interruption. Corporate Fleet Management's core strategic objective has been set at achieving a minimum monthly performance target of 85% fleet availability city wide, managing approximately 5000 Council owned and leased vehicles, equipment and machinery, 66% owned and 34 % leased.

The CoT previously commissioned a study in order to ascertain the most suitable method through which to undertake its fleet services. The study recommended that one of the interventions that needs to be effected within the CoT's fleet services provision is a centralised co-sourcing of fleet management. A centralised co-sourced fleet services provision entails a hybrid situation where some fleet management functions are undertaken internally within the City, whilst other functions are undertaken externally by the private sector. In line with the above-mentioned, the CoT hereby requires the services of a suitably qualified and capable service provider to supply and deliver various categories of vehicles under full maintenance lease for a period of five years.

3. PROJECT SCOPE

- 3.1 The bid provides for the supply and delivery of various categories of vehicles under full maintenance lease (FML) for a period of five years.
- The tender is divided into five(5) categories, namely A, B, C, D and E. In responding to this tender, bidders are advised to take note that the City of Tshwane's (CoT) business and operational dynamics require that fleet be split into various categories, depending on the nature, utilization and operational environment of the relevant fleet. Therefore, proposals are requested in respect of the following categories of fleet:
- CATEGORY A – Supply and management of non-specialized vehicles with a gross vehicle mass not exceeding 3500kg;
- CATEGORY B – Supply and management of specialized vehicles (excluding waste management vehicles and yellow plant) and vehicles with a gross vehicle mass exceeding 3500kg;
- CATEGORY C – Supply and management of waste management vehicles (including, Skip loaders, Hook lifters, Rear End compactors, Bin washers).
- CATEGORY D – Supply and management of Yellow plant.
- CATEGORY E – Supply and management of fire fighting vehicles and equipment (Red Fleet)

Bidders must clearly indicate in their submission which of the categories they are bidding for. No prohibition is placed on the number of categories one bidder can bid for. The key test to which all of the bids will be subjected during the evaluation is that of “affordability, value for money, and optimal risk transfer”.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
